# Fluxx (FLX) Whitepaper

August 4, 2024 Authored by: Development Team

## Executive Summary

Fluxx (FLX) is a revolutionary cryptocurrency project designed for profitability, sustainability, and Deployability in the economic ecosystem. Our mission is to bridge the gap between real-world value and digital world value, providing a single, universal system of exchange of value for both "brick and mortar" and digital values.

## Problem Statement

The current global value exchange system is plagued by cross-border payment solutions deficiency, resulting in huge class gap and currency devaluation. This problem is expressed through:

- Fragmented currency acceptance
- Information overload and misleading data
- Barriers to access

# Solution

## Unified system of exchange of value

Creating a seamless platform for value exchange across digital and physical assets

## Access to the medium of exchange

Ensuring widespread availability and ease of use for all participants

## Accurate information and resources

Providing transparent and reliable data for informed decision-making

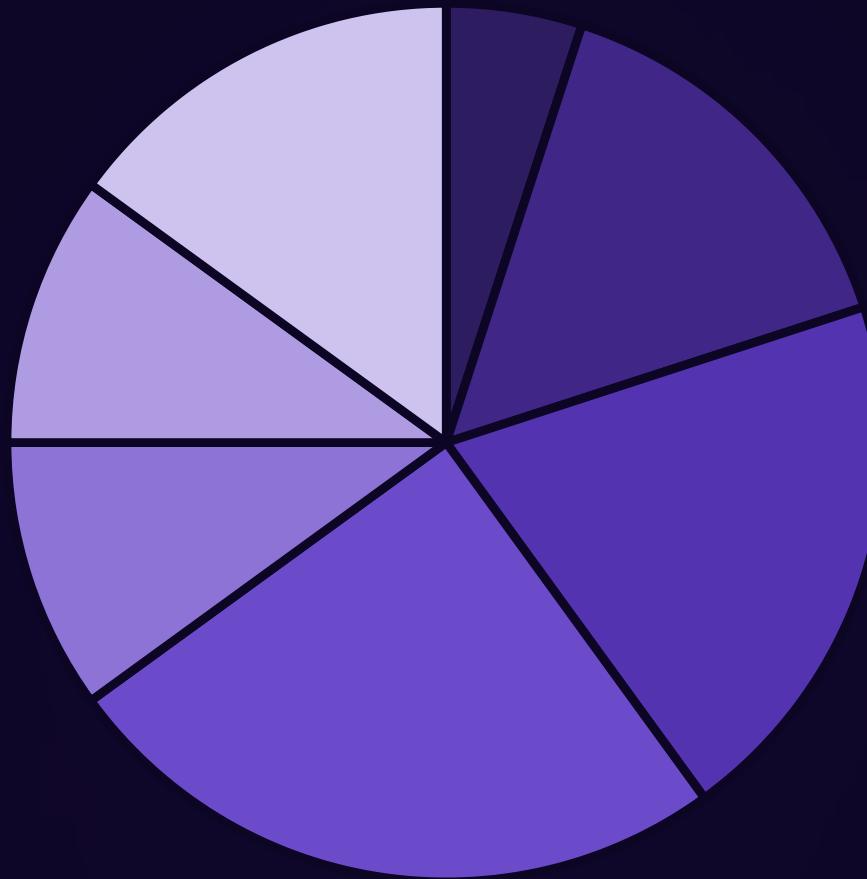

## FLUXX Multicurrency payment gateway

A proprietary technology that allows both fiat and cryptocurrency transactions run quickly and seamlessly using the FLUXX Token as the native token for driving high volume/high speed transactions

# Tokenomics

Maximum supply: 100,000,000 (100 million) tokens

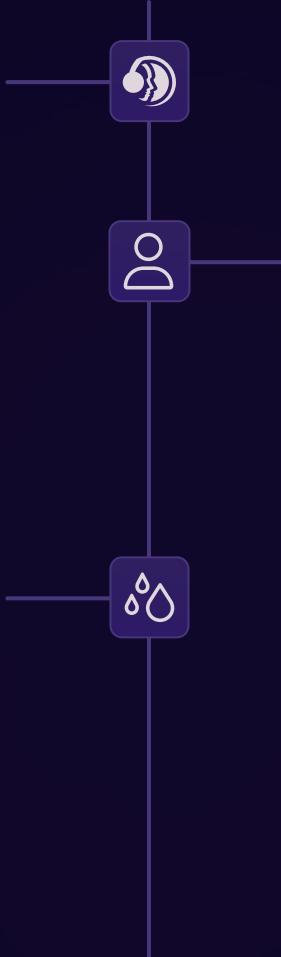

- Airdrop
- Marketing
- Technical Development
- Public Sale
- Owners Compensation
- Exchanges/Liquidity Pool
- Reserve

The Fluxx token vesting is scheduled for swapping and Marketplace engagements. 25% of vested tokens for currency swapping and 75% for Commerce/E-commerce Marketplace engagements.

# Vesting Schedule and Token Lock-up

## Team Tokens: 24-month vesting period with a 6-month cliff

- 0-6 months: 0% vested
- 6-12 months: 25% vested
- 12-18 months: 50% vested
- 18-24 months: 100% vested

## Advisor Tokens: 12-month vesting period

- 0-3 months: 0% vested
- 3-6 months: 33% vested
- 6-9 months: 66% vested
- 9-12 months: 100% vested

## Airdrop Tokens: 6-month vesting period

- 0-1 month: 0% vested
- 1-3 months: 50% vested
- 3-6 months: 100% vested

**Exception Rule:** To promote and facilitate Commerce/E-commerce use cases, Token holders will have access to their locked up tokens only for participation in the Discount Marketplace event. Token are locked up immediately after the Marketplace event to complete the vesting period.

**Token Lock-up:** Founders (24-month lock-up period), Advisors (12-month lock-up period), Key Team Members (12-18 month lock-up period).

# Governance and F.A.B.L.E

## Governance and Decision-Making Processes

Fluxx implements a hybrid governance system combining centralized and decentralized elements:

- Token holder voting
- DAOs (Decentralized Autonomous Organization)
- Council-based governance

Token velocity is determined by activities in the liquidity pool and Fluxx marketplace.

## F.A.B.L.E (Fluxx Auction and Barter Liquidity Exchange)

A unique liquidity pool, backed by an automated growth system that maintains stability and growth potential of Fluxx (FLX) token.
